- It is to be a combination of in person and virtual attendance

Item 7 – Upcoming 2019-2020 SEA-MW Programs

- October 21, 2020: COVID-19 Panel

The Future of Structural Engineering Presentation speaker:
Donald Dusenberry, PE, SECB, past president of the Structural Engineering Institute

Program Highlights:

- Mr. Dusenberry reviewed SEI's strategic planning studies of actions necessary to keep ahead of the effects of technology and other changes in our profession. SEI's board and sub-committees met in 2008, 2011, 2013, 2014 and 2019. A report was issued in 2013 and revisted in 2019. Key influences include technology, globalization, and performance-based design. Initiatives put forth by SEI include leading summits with other organizations, establishing committees to champion performance based design, encouraging resiliency in structures, establish committees for mentoring, and promoting diversity and inclusion.

The session concluded with open Q&A

Session ended at 1:15 pm.
